## Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on May 20, 2004 has been entered.

## **REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance: This application teaches a film forming composition comprising pullulan and a setting system wherein the setting system further comprises cations such as K+, Na+, Li+, NH<sub>4</sub>+, Ca++ and Mg++. The film forming composition is useful for forming containers for unit dosage forms for food, dyes, pharmaceuticals, etc. The prior art of record generally teaches film forming compositions comprising a film former such as gelatin, agar, carrageenan, pullulan etc. and mixtures thereof but fails to teach or fairly suggests a film forming composition comprising pullulan and a setting system wherein the setting system further comprises cations such as K+, Na+, Li+, NH<sub>4</sub>+, Ca++ and Mg++. Accordingly, this application is allowable.
